

Upgrade to your Identity Theft Protection:

In today's world of online shopping, using public Wi-Fi and giving out Social Security numbers as a form of ID, our personal information can be exposed. Unfortunately, free credit monitoring simply alerts you to credit issues. LifeLock not only has proprietary technology to detect a variety of identity threats, if you do have an identity theft problem, our U.S.-based team of specialists can help fix it. It pays to have the comprehensive protection of LifeLock.

When a threat is detected[†], LifeLock notifies members by phone[§], text or email.
